

Introduction to The Asset Protection Network (APN)

The **Asset Protection Network (APN)** is a membership consortium and networking association comprising supplier organisations and experts operating within the **Corporate Security and Operational Support Sector**.

The aim of the **APN** is to:

- * **Optimize** partnerships: to bring together the diverse expertise within **Aprodex** to grow a strong business network of and for operational security and support services worldwide.
- * **Provide** a point of contact for Commerce and Industry, in order to facilitate the sector / service specific collaborations needed to identify and exploit new business opportunities and partnerships,
- * **Liase** with the end user community and the major project leader companies to identify their asset protection requirements and use this knowledge to promote SME capabilities.
- * **Extend** the online platform provided by **Aprodex** for SMEs to promote their operational security and support services, skills and experience via regular informal networking events.
- * **Develop** a robust, peer-led association for verifiable and credible industry contacts in order to enhance transparency, professional standing, and accountability.
