# Riskline Global 24/7™

## Vital facts for safe business travel and expatriate assignments

Riskline 24/7™ gives security and peace of mind to those travelling to potentially hostile environments.

Companies wishing to protect their employees, assets and reputations face ever increasing challenges in today's rapidly changing security environment. Riskline 24/7™ anticipates developments at a local, state and regional level worldwide. Our unique, locally-sourced network works to protect the individual traveller by keeping them abreast of events that could impact on their safety. Our unbiased advice ensures that individual and company security is maintained, risks are avoided and opportunities are not missed. Unlike physical security providers, Riskline 24/7™ does not stand to profit from exaggerating threats: assessments are realistic, advice practical.

The clients can choose from a range of products including briefings, training courses, SMS alerts, web-access and telephone support. We aim to provide a valuable, impartial and affordable service to independent and business travellers alike.

### Who

Riskline Global 24/7™ is the ideal choice for companies that have employees in high risk areas around the world. Developments in politics, religion and internal power struggles are just some of the areas companies need to keep abreast of in order to protect:

- Employees on secondment
- Business travellers
- International representatives

### What

Riskline Global 24/7™ is a risk database developed in Europe that provide 24-7-365 online access to security and risk assessment updates of more than 200 countries worldwide.

Our internet-based information service is designed to help companies and individuals to assess the security situation for a specific journey or work destination anywhere in the world. We focus on travel security, highlighting problems that travellers may face and specific advice on how to guard against these.

Riskline Global 24/7™ advises on precautionary measures needed for a country or region affected by:

- High crime levels
- Kidnapping and extortion
- Terrorism
- Political instability and war
- Ethnic unrest
- Natural disasters
- Human rights issues and corruption

### Where

Riskline Global 24/7™ covers Europe, Africa, the Middle East, Asia and the Americas. Information and assessments are compiled by experienced senior analysts with a variety of backgrounds in the security and business continuity fields. We collaborate closely with a large network of local experts in high risk countries around the world and we have links with the world's leading risk management specialists and advisors. Altogether, we cover more than 200 countries worldwide.

### How

Company subscriptions to Riskline Global 24/7™ give you a unique User ID and a password for the website [www.riskline.com](http://www.riskline.com). The website can be accessed from wherever you are giving you a constant stream of updated, detailed information and a current assessment of the level of risk for the country you are in. In addition, analysts will advise clients on sudden events via SMS alerts and will be available to provide additional advice by telephone. You will have at your fingertips:

- [www.riskline.com](http://www.riskline.com)
- SMS alerts
- A 24/7 advisory hotline

Riskline Global 24/7™ is also available with bolt-on services. These include Early Warnings, trend analysis, Proof of Life™ via coded SMS messages and much more.

Individual subscriptions are available for company employees and private clients.

Riskline is one of Europe's leading travel security and asset protection providers. Our aim is to provide clients with the reassurance that they have mastered the security risks associated with employee travel, secondment abroad and project work. And that they have protected the company's physical assets against theft, vandalism, natural phenomena, aggressive activism and terrorism.
